Subject: RE: Split sample for New Cricket Spring, Arkwood
Date: 01/09/2012 03:58 PM

Thanks Jim,

We are still waiting for a WAF (Work Authorization Form) from EPA. I checked on the status of it last week, but I haven't heard anything from EPA Grants at this point. Thank for keeping me informed about your sampling dates. I will let you know when I get the paperwork, so we can officially schedule some one out of our USGS Arkansas Wastr Science Center to meet you for sampling. I am guessing at this point it maybe at least another month before we can send some one out to meet you. Also, EPA would need a little bit of time to set up an analytical request at their lab in Houston and I would need a little bit of time to put together a basic QAPP before sampling could occur.

I hope all is well.

Subject: RE: Split sample for New Cricket Spring, Arkwood

Ken,

I have not yet scheduled the monthly sampling for the Arkwood site for January. Typically, I would sample the site within the next week to ten days. Due to schedule, I will not be sampling this week but would like to tentatively schedule the sampling event for next week Monday or Tuesday (January 16 or 17, 2012). Please let me know if you are planning on splitting the monthly samples in January.

Best Regards,

Jim

jean/jay: The split sampling for Arkwood scheduled for December had to be postponed due to not being able to finish the paper work. Kent Becher of USGS will be touch to complete the split sampling in January 2012. Please keep Kent informed on possible sample collection in January.

Kent Becher----- can be reached at Cell 817-253-0356 or USGS 817-263-9545 Ext 204

Thanks

Shawn
